~~CONFIDENTIAL~~

7 August 1980

MEMORANDUM FOR: Director of Logistics

25X1 FROM:

[redacted]
Chairman, Administrative Directorate
Management Advisory Group

25X1 SUBJECT:

Note of Appreciation [redacted]

25X1 The members of the Administrative Directorate Management
Advisory Group (ADMAG) would like to express their appreciation
to you and [redacted] of your Plans and Programs Staff
for the very informative presentation on the Federal paid-
parking program. Your responses to the many questions were most
forthright. As you are aware, the subject is of great concern
to many. The ADMAG members plan to brief their respective
25X1 components on the program and answer the numerous inquiries they
have received from employees. [redacted]

MEMORANDUM FOR: Director of Security

FROM: James H. McDonald
Director of Logistics

SUBJECT: Federal Paid-Parking Program []

1. As you are aware, it is almost a certainty that the Headquarters complex will be included in the Federal paid-parking program this October. []

2. The OMB Circular which established the paid-parking program requires each Agency to implement an effective program for deterring abuse of parking space assignment. The key to the success of the paid-parking program is the strict enforcement of the parking regulations. In this respect, I believe it would be appropriate if representatives from our offices start planning how the parking regulations can be effectively enforced and what resources will be required to do this. []

3. I have appointed [] as the task force leader to implement the paid-parking program at the Headquarters complex. He is available to meet with whomever you appoint from your office to discuss this matter. [] may be reached on extension [] []

James H. McDonald

11 AUG 1980

MEMORANDUM FOR THE RECORD

SUBJECT: Headquarters SLUC Rates

1. Per telecon with Terry Mellott, GSA, Federal Buildings Fund, and Bob Powers, GSA, Utilization Branch, Headquarters was appraised in 1976 for FY 78, 79, and 80 SLUC bills.
2. GSA appraised Headquarters during FY 79 to establish the SLUC rates for FY 81, 82, and 83. These rates go into effect on 1 October 1980 for FY 81. (See attached FY 81 SLUC Budget Estimate.) These rates will be in effect until 30 September 1983.
3. GSA will physically reappraise the Headquarters Building during FY 82 for SLUC rates for FY 84, 85, and 86.
4. The SLUC rates are estimated by GSA to be high the first year, very close to actual cost the second year, and usually at a loss the last year. (This loss is made up on the first year of the next appraisal.)

The Good News:

No Parking Fee Rise

A little good news about prices, which always seem to go up here in October because that is when this town's biggest industry—the Uncle Sam factory—gives out pay raises to its 300,000 white collar workers.

The good news is that thousands of federal commuters here will not have to continue to pay to park, for a while because of the slated 9.1 percent raise.

U.S. employees now pay about half the equivalent commercial rate (as fixed by the General Services Administration) to park at the office. That resulted from a presidential directive that said feds ought to start paying for spaces they formerly got free. (The pay parking order irked many because it does not cover thousands of reserved spots on Capitol Hill, nor does it affect reserved spots around the White House).

Some agencies are exempt from the pay parking—either because of inadequate public transportation or their remote location, but most federal drivers now pay, anywhere from \$10 to \$40 per month to park. The average fee is about \$12, for the 30,000 spaces here under pay parking.

On Tuesday this column advised that there probably would be no parking increase this year—although fees will double for many in October 1981. Now that is official. The Office of Management and Budget has informed department and agency heads that there is no plan to increase rates for parking this year.

The other shoe will drop in October 1981. That is the date President Carter has set for full commercial equivalent rates to go into effect. In other words if you pay \$14 per month to park now, you probably will pay at least \$28 for that space beginning in October 1981. You could wind up paying more, if commercial rates go up.

Many commercial parking firms in the metro area already have raised rates, thanks to newspaper publicity about the impending federal pay raise. Many others will raise parking fees in October and November, or the first of next year.

October Trips: League of Federal Recreation Associations has a number of bus trips—to Busch Gardens, Williamsburg and Reading (Pa.) fac-

NOAA Satellite photo taken yesterday at 1 p.m. EDT. Thunderstorms in the Gulf stretch from Cuba to Louisiana. Frontal clouds with showers and thundershowers cover the eastern Missouri and western Ohio Valleys. Over Arizona and North Carolina appear mid-level clouds.

Almanac Data

SUN, MOON & TIDES

New Sep. 9 First Sep. 17 Full Sep. 24 Last Sep. 30

Friday, September 8

Sun rises 6:40 a.m., sets 7:33 p.m.
Moon rises 2:57 a.m., sets 5:29 p.m.

Tides: high at 5:31 a.m. and 6:09 p.m., low at 12:48 p.m. High and low tides at the following locations may be obtained by subtracting the hours indicated from the hours above: Annapolis (3 1/2), Bloody Point Lighthouse (4 1/2), Deal, Md. (4 1/2), Colonial Beach (5 1/2), Norfolk (1), Virginia Beach (3 1/2), Solomons Island (5 1/2), Point Lookout (7).

POTOMAC RIVER

The National Weather Service forecasts the Potomac River stage at Little Falls to remain near 2.8 feet today. Levels below 5 feet are considered safe for recreational activities.

THE PLANETS

Washington (Friday, E.D.T.)

Venus—rises 3:01 a.m., sets 5:12 p.m.
Mars—rises 11:00 a.m., sets 9:36 p.m.
Jupiter—rises 7:11 a.m., sets 7:50 p.m.
Saturn—rises 7:53 a.m., sets 8:16 p.m.

Planets rise in the east and set in the west, reaching their highest point on the north-south meridian, midway between their times of rising and setting.

Dial-a-Phenomenon, 357-2000

The National Weather Service Forecast for today: From the Gulf Coast through the Appalachians to the Atlantic Coast showers and thunderstorms will occur. Parts of the mid Mississippi Valley will have scattered showers. There is also a chance of the same along the Pacific Northwest and in Arizona. High temperatures over 100 are expected in the Desert Southwest. The Southern and Central Plateau, eastward through the lower Missouri and Ohio Valleys, and the southern Atlantic Coast will have readings around 90. The North Central states and New England should be in the 70s.

The Nation Yesterday: Thunder showers stretched from the Gulf Coast to the Ohio Valley. Clouds covered portions of Montana. Mostly sunny skies prevailed over New England and the remainder of the area from the Plains to the north-central Plateau. The western Great Lakes region also had clear skies. In the southern and central coastal portions of California, patches of fog and haze were present. Temperatures in the 90s were recorded from the Texas coast to southern Kansas, across portions of the central Gulf Coast states, southern Appalachians to the Carolinas.

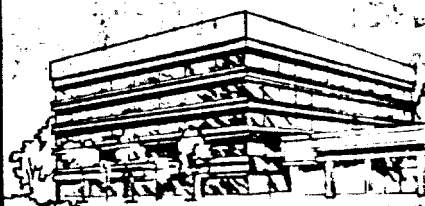

Iran Hostages Remembered At Ceremony

By Keith B. Richburg

Washington Post Staff Writer

In a brief but solemn ceremony on the grounds of Georgetown University yesterday, about 200 people marked the beginning of the 11th month of captivity for the American hostages in Iran.
